<b>Position:</b>	JET Apprentice	<b>Location:</b>	TBD
<b>Grade/Salary Range:</b>	Hourly	<b>Cost Center:</b>	TBD
<b>Business Unit:</b>	North Dakota Production	<b>Posting No.</b>	
<b>Relocation Availability:</b>	None	<b>Last Updated:</b>	6/22/20

### **POSITION SUMMARY:**

JET Apprentice: Will assist with the operation of various wells and equipment at designated locations. The apprentice will be required to perform minor maintenance and equipment repairs and enter daily production information into computer system with help from mentor/coach. This position will vary in length based on students' academic standing. Must be willing to work hours that reflect business needs.

### **ROLES/RESPONSIBILITIES:**

- Assist with operating changes necessary for safe and efficient well operation.
- Relay operating/safety problems or concerns to supervisor.
- Work with Reliability Operator to troubleshoot production equipment or well failures.
- Perform minor repairs on failed operating equipment with direct supervision.
- Enter daily production numbers in computer system.
- Adhere to written operating procedures for shutdown and startup of equipment.
- Adhere to lockout/tagout procedures to prepare equipment for maintenance work.
- Actively participate in tailgate safety meetings, JSAs and monthly safety meetings.
- Participate in emergency response activities as required by mentor.
- Participate in Hazard Observation reviews as required.
- Daily review of Regulatory reporting and equipment trend monitoring systems.
- Assist keeping well locations free of trash, weeds, and general clutter.
- Perform daily SPCC inspections and document results.

## **EXPERIENCE:**

- Willing to accept responsibility and accountability with a positive attitude.
- Must have good communication skills, both verbal and written.
- Must demonstrate good time management skills.
- Good knowledge of safety/environmental requirements and practices.
- Must be physically able to climb stairs, operator valves and pumps and perform maintenance work under air supplied breathing equipment.
- Must be willing to work weekends and holidays according to the normal operating schedule.
- Proven safety experience/training regarding oil and gas operations including but not limited to, confined space, energy isolation, H<sub>2</sub>S, personal protective equipment, etc.
- Must have valid driver's license.

## **EDUCATION/TRAINING:**

- This position requires acceptance into a Bismarck State College Energy program (online learning environment).
- Student must maintain a minimum grade of a C in all program course work.
- Student must provide an unofficial transcript or letter of acceptance for review when application is submitted.
