There are many opportunities within the Petroleum Production Technology program:

- Complete a Certificate or Associate of Applied Science Degree in Petroleum Production Technology
- Take a single course or complete a certificate or degree
- Flexible to fit your schedule
- Qualified instructor-led and industry-approved
- Access to cutting-edge learning tools

Education to Begin Your Career:
- Prepare for in-demand careers in oil and gas production
- Classes available online with several on-campus options
- Work in operator, technician, or service roles
- Learn to operate and maintain equipment used in oil extraction
- Use interactive, industry-approved animations and simulations

Enhance Your Company Training:
- Leverage cutting edge learning tools in training programs
- Complete individual courses for professional development
- Accelerate development from within
- Standardize across regional/national footprint
- Align to your tuition reimbursement program
- Content developed for industry use

Benefits to Enrolling:
- Online with hands-on training
- Select courses available on campus
- Fully accredited
- Credit for your experience
- Courses offered every 3-5 weeks
- Pathway towards Bachelors of Applied Science in Energy Management

Are you looking for the skills and training needed for long-term opportunities in the oil and gas industry? The petroleum industry offers exciting, high-paying career opportunities in North Dakota and throughout the world. The Petroleum Production Technology program at the Bismarck State College (BSC) National Energy Center for Excellence (NECE) prepares graduates for careers in exploration, drilling, production, processing, or service sectors of the oil and gas industry. The online program explains how various aspects of the industry are connected. Stay ahead of the rapidly changing industry by leveraging state-of-the-art, interactive learning tools aligned to actual on-the-job tasks.
