Agronomy is the science and technology of producing and using plants for food, fuel, fiber, and land reclamation. Agriculture is evolving into a more business-savvy industry and large farming operations are turning to agronomists to manage soil and crop production. BSC’s Agronomy program prepares students for multiple positions within the agronomy industry.

Coursework focuses on crop science, agribusiness skills, and technology-based processes related to business management, crop production, soil science and precision farming. Instruction includes guidance systems, handheld GPS systems, GIS software, variable rate fertilizer application and remote sensing. Students graduate with an Associate in Applied Science degree.

CAREERS
- Crop consultant
- Crop scout
- Crop protection applicator
- Fertilizer applicator
- Retail/wholesale sales professional

The global economy offers many opportunities to provide food, animal feed and energy, which makes it an exciting time to be involved in agriculture. The current student placement rate in this program is 100 percent.
YOUR BEYOND STARTS HERE

IF YOU’RE A NEW STUDENT
- Complete your application for admission online
  bismarckstate.edu/apply
  *non-refundable $35 application fee
- Request your official high school transcript or official GED transcript be sent to BSC
- Request documented proof of immunity to measles, mumps, rubella and meningococcal
- Submit placement test scores

IF YOU’RE A TRANSFER STUDENT
- Complete the new student section above
- Request your official college transcripts be sent to BSC

IF YOU’RE A RETURNING STUDENT
- Complete your application for admission online
  (no fee required) bismarckstate.edu/apply
- Request your official college transcripts be sent to BSC

DON'T FORGET!
- Apply for scholarships
  bismarckstate.edu/scholarships
- Submit your free application for federal student aid at fafsa.gov
  BSC school code: 002988

Additional admissions requirements may apply.
