Why should you become an academy school with the BSC Palo Alto Networks Regional Academy?

- » Your high school or college instructors are certified to teach Palo Alto Networks curriculum upon completion of their own training
- » BSC Faculty will provide you with operational support, troubleshooting, and curriculum integration
- » Your teachers/instructors and students will receive Netlab and online equipment access
- » You will receive a semiannual support evaluation, collaboration meetings, and updates through our Palo Alto Networks Regional Academy newsletter
