Aging Gracefully

Aging Gracefully is a vibrant, adaptive dance program designed for older adults who want to enhance movement, coordination, balance, and overall well-being. Unlike typical chair-based classes, this experience blends seated and supported standing exercises inspired by gentle modern, ballet, and social dance styles—uplifting both body and spirit. Each session begins with a rhythmic warm-up and stretch, followed by dance-influenced movement sequences that can be performed seated or standing, depending on your comfort. These exercises help build strength, flexibility, posture, and coordination, while significantly reducing fall risk. Gentle aerobic activity promotes cardiovascular health and joint mobility, flooding the

brain with mood-boosting endorphins. Participants also engage cognitively by learning simple movement patterns that stimulate memory, focus, and spatial awareness. The atmosphere is warm and inclusive, encouraging self-expression, social connection, and a sense of community. *No dance experience is required—just wear comfortable clothing and bring a filled water bottle if desired.*
