HANDS-ON LEARNING. WORKFORCE READY.

Customize your degree and be workforce ready with a well-rounded skill set specific to your desired career.

The Integrated Studies degree offers students an opportunity to combine three short-term certificates (16+ credits each) that are job/skill related into one Associate in Applied Science degree. This allows for a specified pathway to your future occupation with minimal "extra" courses.

DEGREE PLAN

This program of study includes a minimum of 60 semester credit hours derived from a combination of three short-term certificates and could include coursework from fields such as cyber/IT, business/management/HR, entrepreneurship, accounting or any of the many technical fields from which students are enrolled.

Prescribed Technical Program	48-54
General Education	15
TOTAL DEGREE CREDITS	63-69

PRESCRIBED TECHNICAL PROGRAM REQUIREMENTS (48-54 credits)

Certificate (Business, Finance, Communications or Sports and Exercise Science)	16-18
+	
Certificate (Business, Finance, Communications or Sports and Exercise Science)	16-18
+	
Certificate (Cyber, IT, Business, Finance, Communications or Sports and Exercise Science)	16-18
TOTAL CREDITS	48-54

CAREER OPPORTUNITIES

The Integrated Studies degree provides opportunities for career advancement, increased job responsibility or preparation for alternative employment. This degree is a great fit for those who can clearly articulate individual career goals. An academic advisor will aid in designing the best academic plan to meet those goals.
