

# AGRIBUSINESS

TECHNICAL • LIMITED ENROLLMENT  
ON-CAMPUS

The global economy offers many opportunities to provide food, animal feed and energy, which makes it an exciting time to be involved in agriculture.

## CAREER opportunities

- Qualified Consultants
- Salespersons
- Technicians
- Managers
- Service-Related Positions
- Precision Ag Consultant

## HANDS-ON LEARNING. WORKFORCE READY.

**Pursue a business management and/or sales-related position with an agribusiness.**

Graduate from the Agribusiness program with career opportunities in the fields of agronomy, livestock production, precision agriculture, insurance, ag lending, machinery, ag supply, and ag service. Specialize within these fields in sales, operation and management. The Agribusiness program offers classroom instruction and hands-on laboratories in agriculture economics and business combined with electives in agriculture areas such as livestock production, crop production and precision agriculture. This coupled with a supervised internship will prepare you for gainful employment.
