- Peer Support Specialists
- Community health workers

HANDS-ON LEARNING WORKFORCE READY.

Make a difference where it matters most.

Bismarck State College's Associate in Applied Science in Integrated Behavioral Sciences gives you the foundation to pursue meaningful work in human services, psychology, social work, or criminal justice.

Through an interdisciplinary curriculum that blends psychology, sociology, social work, and human services, you'll gain a deeper understanding of human behavior and social systems. This flexible program equips you with the knowledge and practical skills needed to support individuals and communities facing mental health challenges, substance use issues, and other social concerns.

Whether you're looking to enter the workforce or continue your education, this degree sets you on a path to help others and create positive change.

STACK CERTIFICATES TO BUILD INTO A DEGREE

BSC's Psychology Certificate is a stepping stone toward the Associate in Applied Science in Integrated Behavioral Sciences. By stacking this certificate, you'll build on your foundation in psychological principles while expanding your knowledge in sociology, social work and human services. It's a flexible, career-focused path that helps you make a greater impact in the behavioral health and human services fields.
