

AGRICULTURE MANAGEMENT

ONLINE • BACHELOR'S DEGREE

BISMARCK
STATE COLLEGE | North Dakota's
Polytechnic Institution

Graduates are prepared for advancement into leadership and management roles across the agricultural industry. The program develops applied technical and decision-making skills aligned with modern agricultural operations. It supports long-term career growth and increased responsibility in the field.

CAREER opportunities

- Farm & Ranch Management
- Agribusiness Operations
- Agricultural Sales and Services
- Cooperative and Supply Chain Management
- Agricultural Consulting
- Compliance and Resource Management

HANDS-ON LEARNING **WORKFORCE READY.**

Advance your agricultural career with a bachelor's degree focused on management, leadership and applied industry skills.

The Bachelor of Applied Science in Agriculture Management prepares you to advance into leadership and supervisory roles in today's agricultural industry. Building on an Associate in Applied Science degree in agriculture or a closely related field, the program combines agricultural science with business, management and technology to prepare graduates for the operational demands of today's crop, livestock and agribusiness environments. You'll gain practical experience in agricultural operations, sustainability, industry compliance and applied management decision-making, preparing you for higher-level roles and greater opportunities across the agriculture industry.

BUILD ON YOUR SUCCESS
