

COMMUNICATION PATHWAYS

COMMUNICATION PATHWAYS

BSC offers a variety of certificates designed to meet specific and unique occupational needs. Certificates can be stacked toward an associate or bachelor's degree. Choose from our hands-on graphic design or mass communication certificates to enhance your career and expand your skillset.

GRAPHIC DESIGN CERTIFICATES

APPLIED DESIGN TECHNOLOGY includes classroom and lab instruction in a Mac-equipped studio where students will be introduced to digital photography and basic principles of design including how to create their own font type. Each student will be required to complete a portfolio of their work and/or participate in a co-op or internship.

GRAPHIC DESIGN TECHNOLOGY includes classroom and lab instruction in a Mac-equipped studio where students will be taught the technical backbone needed to work in Adobe Creative Cloud software.

MASS COMMUNICATION CERTIFICATES

DIGITAL BROADCASTING curriculum is related to the production of video and audio broadcasting for digital distribution. It will include development of content, use of equipment (cameras, microphones, teleprompter, tri-caster, audio board) and software (Adobe Creative Suite: Premiere Pro and Audition).

PRINT AND DIGITAL PUBLICATIONS courses provide background in the journalism/mass communication profession and convey the importance and responsibility of presenting accurate information in the media. Students will develop content using technology and software including Adobe Creative Suite InDesign, and Photoshop) and become proficient in reporting, feature writing, interpretive writing, opinion writing, and English usage and grammar.
