HANDS-ON LEARNING **WORKFORCE READY.**

Understand the systems that shape society

With a two-year Associate in Arts degree in Political Science from Bismarck State College, you'll explore how political systems develop, operate and influence the world around you.

You'll study local, state and federal government structures, along with topics in politics, economics and statistics. This program provides the first two years of coursework toward a bachelor's degree and prepares you for careers or continued studies in law, foreign affairs, government service, journalism, politics and related fields.

PREPARING FOR SUCCESS IN YOUR DEGREE

To prepare for a degree in political science, while in high school, you should take courses in the social sciences, mathematics, writing and technology. History and foreign language classes are also helpful. Skills needed for success in a political science career are critical and analytical thinking, intellectual curiosity and writing. An advanced degree is standard for this field.
