NURSING
ASSOCIATE DEGREE NURSE (ADN)

Nursing education is organized as a career ladder that begins with CNA training at BSC. Classroom education is delivered from instructors on campus and other colleges through the Dakota Nursing Program Interactive Video Network on campus. Clinical and lab practice occurs at local sites. Graduates can earn an 11-month Practical Nursing Certificate, then upon meeting requirements, advance to the Associate in Applied Science Program (Associated Degree Nurse or ADN).

PREPARATION AND REQUIREMENTS
A strong high school background in biological sciences and mathematics is recommended. Enrollment is limited and achieved through a competitive interview process. CPR certification and academic prerequisites are required before enrolling in the Nursing program. When students successfully complete the PN Certificate in the first-year program, they can continue into the second-year AD (RN) program with qualifications met. BSC also educates nursing students in rural communities through our satellite locations in Hazen, Harvey, Ashley, Garrison and Hettinger. Those planning to earn a Bachelor of Science in nursing (BSN) should consider the RN-to-BSN bridge programs offered in the state. All nurses must be licensed.

CAREERS
- Hospital acute care settings
- Long-term care facilities
- Clinics
- Outpatient offices
- Home health care services
- Healthcare industry
- Community and public agency
- School
- Correctional facility
- Military

Graduates of nursing programs are in high demand throughout the United States. Employment of RNs and LPNs is projected to grow between 19 and 25 percent through 2022, much faster than the average for all occupations, according to the U.S. Bureau of Labor Statistics.

BSC’s ADN program is regulated by the North Dakota Board of Nursing, and are nationally accredited by the Accreditation Commission for Education in Nursing (ACEN). 3343 Peachtree Road NE, Suite 850 Atlanta, Georgia 30326 Phone: (404) 975-5000
