- Interpreter
- Foreign Language Teacher
- Business Representative
- Healthcare Interpreter
- Law Enforcement Worker
- Tour Guide

HANDS-ON LEARNING **WORKFORCE READY.**

Stand out in today's global economy—learn a new language and open new doors

At Bismarck State College, you can build your Spanish skills and gain the confidence to use them in real-world situations. Studying a foreign language not only gives you a competitive edge in the job market but also sharpens your critical thinking and cognitive abilities. Through a four-semester Spanish program that blends traditional instruction with technology, you'll develop practical language skills that set you apart. Your course placement is based on your prior Spanish study and your college-level placement test. Complete the program requirements, and you'll earn your Associate in Arts degree.

PREPARING FOR SUCCESS IN YOUR DEGREE

It's important to note that many four-year schools require two years of college-level foreign language proficiency for certain majors. If you're planning to continue your language studies, you'll want to follow BSC's recommended Liberal Arts curriculum.
