

BSC's Placement Report

The placement office at Bismarck State College was established in 1996 and has progressed to become the Counseling and Career Services office. This office assists students with the career counseling process and job search activities among employers, students and college staff. The office also provides students and faculty members with national labor market information, Job Seekers Network referral statistics for the college, and other relevant information in relation to past graduates. The Bismarck State College Placement Report reflects employment data related to BSC programs. This information may be useful in providing prospective students with information as they begin researching possible career paths.

Due to cyclical nature of business and industry, the information in this report should not be viewed as long term results, but rather as an informational resource for career planning. Local and regional economics may impact different outcomes in this report from year to year.

The data for this report was collected through E-mail surveys, phone contacts, and through information provided by program instructors. Throughout this process, phone contacts were made to obtain information from students who had not responded to the surveys. Individual instructors provided information on students who had not yet responded to the surveys or were unable to be contacted by phone.

This report contains information concerning graduates of the respective programs in which they were enrolled. Students are identified for follow-up by the Registrar's Graduate Report, which ran from July 1, 2008 to June 30, 2009. A graduate is defined as a student who has completed the required coursework for an Associate in Applied Science Degree, a Certificate, or Diploma program. These students must apply for graduation to be identified in the Registrar's Graduate Report.

Job Seekers Network is an online system used by the Counseling and Career Services office to post employment opportunities. This system can be accessed through the Career Services home page: bismarckstate.edu/student/career.

This office also provides personal counseling. This service is available for current BSC students.

Jay Meier
Bismarck State College
Director of Counseling and Career Services

Transfer Curricula

Accounting	Journalism
