Planning and Feedback Session

The purpose of this session was to gather from members of my Toastmasters Club (citizens of the Bismarck-Mandan area) using one of the key questions developed by the SPTF.

**Group:** Highnooners **Date:** October 11, 2011 **Tool:** Written Survey **# Attendees:** 5

**Toastmasters**

If you could describe the ideal college, what would it look like?

Responses

- Provider of excellent education
- Sporting events that provide students and alumni entertainment
- Greek system (fraternities/sororities)

- A place where everyone would feel a sense of ownership ... maybe through public events held - basically a way of getting more exposure of the opportunities and events
- A way of responding quickly to changing economic times; curriculums often can’t seem to move quickly to accommodate what is happening
- Maybe more webinars, etc. to bring the public in

- Optimistic
- Energetic
- Open to all
- Teach truth above all; quality education

- A college with values, integrity, and cost effective
- Community involvement with passion and sincerity
- Dedication to success

- A place where learning of all kinds is available to all people
- Special services for special needs people
- Academic learning
- Vocational learning
- Other learning (non-credit, older adults)
