702.4- Salary Administration

Purpose:

The purpose of this policy is to attract and retain well-qualified individuals who can best contribute to the College's mission, vision and institutional goals.

Policy:

Decision-makers in the salary administration process will make salary decisions in a fair and consistent manner, based on available funds. Salary decisions are also dependent upon legislative action and ND State Board of Higher Education (SBHE) direction and are made in accordance with North Dakota University System Human Resource Policy (NDUS HR) 5. To provide the College with the ability to use its limited resources most effectively, salary administration aims to:

1. To recruit and retain well qualified employees.
2. Be responsive to market influences with consideration for internal and external equity.
3. Recognize different performance levels among employees.

At a minimum of every four years, each employee’s salary will be reviewed for equity and alignment to market.

Grievance policies/procedures are available to provide an impartial review of salary adjustment decisions. Any employee who believes that their salary adjustment decision was inappropriate may request a review through the appropriate process listed in the reference section of this policy.
