Policy:

It shall be the policy of Bismarck State College to have rules and regulations governing the changing of final grades which assure fairness and consistency.

Reasons:

Submitted grades, except grades of incomplete, are final and may only be changed by the instructor to correct human error or fraud (plagiarism or cheating). Grades may not be changed for students submitting additional work or materials past the last day of course.

Final Grade Change:

1. Course instructors may change final grades, on their own authority, within the limits of this policy, through the end of the next regular semester after a course is taken. Reasons for the change must be documented on the final grade change form or email.

2. In the absence of the course instructor, the Department Chair/Program Manager must complete the final grade change form.

3. Course instructors may change final grades, within the limits of this policy, two or more regular semesters after the course is taken with the approval of the Department Chairperson and Dean of Academic Affairs. Final grade changes for Energy Division courses will need approval of the Program Manager and Associate Vice President, NECE. Reasons for the change must be documented on the final grade change form or email.

4. Summer session is not defined as a regular semester for the purposes of this policy.

5. Grades cannot be changed to a withdrawal (W) or an audit (AU) as those are not grade options. They are administrative procedures initiated by the student, not the instructor.

6. If the change of a final grade impacts academic standing and academic honors, the update will be reflected on the student’s transcript.

Procedures:

In accordance with the regulations provided above, instructors should provide final grade changes using one of the following methods:

Note: If an instructor has five or more final grade changes per class they must be submitted using the final grade change form rather than an email.
