Engineering Technology Curriculum Flowchart

- Students should note that this is the preferred curriculum flowchart. Students who do not follow or cannot follow this sequence may encounter academic and/or scheduling difficulties and should seek advisor assistance from the program instructors before registering for courses.
- Single sided arrows indicate pre-requisite courses (1st course must be taken before 2nd course - course with arrowhead attached to it is the 2nd course)
- Double sided arrows indicate co-requisite courses (courses must be taken simultaneously)
- Courses with both single sided arrows and a double sided arrows attached means they are either pre-requisites or co-requisites (student must have taken the course earlier or be taking them simultaneously)

Revised: Fall, 2012
