

BSC's Placement Report

The Bismarck State College Placement Report reflects employment data related to BSC programs. This information may be useful in providing prospective students with information as they begin researching possible educational and career paths.

Due to cyclical nature of business and industry, the information in this report should not be viewed as long term results, but rather as an informational resource for career planning. Local and regional economics may impact different outcomes in this report from year to year.

The data for this report was collected through e-mail surveys, phone contacts, and through information provided by BSC program instructors. Throughout this process, phone contacts were made to obtain information from students who had not responded to the surveys. Individual instructors provided information on students who had not yet responded to the surveys or were unable to be contacted by phone.

This report contains information concerning graduates of the respective programs in which they were enrolled. Students are identified for follow-up by the Registrar's Graduate Report, which ran from July 1, 2011 to June 30, 2012. A graduate is defined as a student who has completed the required coursework for an Associate in Applied Science Degree, a Certificate, or Diploma program. These students must apply for graduation to be identified in the Registrar's Graduate Report.

This report is provided by the BSC Mystic Advising and Counseling Center (MACC) as an extension of our work with students, employers and BSC staff to provide career counseling and job search assistance. We also provide students and BSC employees with national labor market information, Job Seekers Network referral statistics for the college, and other relevant information in relation to past graduates.

Job Seekers Network is an online system used by the MACC to post employment opportunities and can be found at bismarckstate.edu/current/careers. The MACC also provides personal counseling to current BSC students.

Jay Meier
Bismarck State College
Director of Counseling and Advising Services

Transfer Curricula

Accounting	Mathematics
Agriculture	Medical Laboratory Scientist
Art: Visual	Medical Laboratory Technician
Biology	Music
