Purpose:

The purpose of this policy is to provide an appropriate framework for the awarding of a posthumous degree to a deserving student who died before completing all degree requirements, while still maintaining the academic integrity of the program of study and institution.

BSC awards degrees in two academic divisions: Academic Affairs and the National Energy Center of Excellence (NECE). A deceased student may be considered a candidate for a posthumous degree in either division when nominated by a department chair, program manager, or faculty senate by a majority vote.

Requirements for Nomination:

1. A student must have been in good academic standing with the institution at the time of death. Good standing is defined as not being academically deficient for their classification (academic probation, continued probation, suspension or expulsion).

2. College requirements for earned credits in residence must have been satisfied.

3. Student must have been enrolled at time of death (summer excluded), or their continuous enrollment was interrupted by their injury, illness, deployment, etc.

4. A student must have completed 75% of degree requirements (measured by credits attempted and successfully completed) to be nominated for a posthumous degree.

5. The chief academic officer (CAO) recommends the awarding of a posthumous degree. The CAO will not recommend the awarding of a posthumous degree in an energy program without the support of the vice president of the NECE.

Nomination/Approval Process:

1. Anybody may identify a candidate for a posthumous degree, but such a suggestion must be made to the department chair or program manager who supervises the program in
which the student was enrolled at the time of death. Alternatively, the suggestion for nomination may be made to Faculty Senate.

2. Regardless of the source of the nomination, the student’s name must be forwarded to the academic dean or associate vice president of the appropriate academic division for consideration and to begin the formal process.

3. The student’s degree audit file shall be reviewed by the registrar to verify program/plan and progress toward degree completion.

4. The academic dean or associate vice president of the NECE will recommend the candidate for a posthumous degree in the form of a formal written request to the Provost and Vice President for Academic and Student Affairs (Provost). The request must include the name and ID of the student, the degree/program/plan to be awarded, and the recommended semester for degree conferral. The request for a posthumous degree for a student in the NECE will first go to the VP of the NECE for approval. The Provost will confer as needed with appropriate faculty, department chair or program manager, and academic officers of the college division in which the student was enrolled to reach consensus on the awarding of the degree.

5. If supported by the Provost, the Provost will submit a recommendation to the college president for formal approval. If approved by the president,

   a. The Provost will notify the registrar to begin the process for degree posting and commencement proceedings, if applicable.

   b. The college president will inform the immediate family of the college’s decision and desire to recognize their student with this honor (this process should be kept confidential until and unless approved at all levels). If the family desires to represent the student and receive the diploma at a commencement ceremony, this must be relayed to the registrar for planning.

**Summary: Routes for Approval**

1. **Student from the NECE**
   a. Program Manager→AVP→Registrar→VP→Provost→President
   b. Faculty Senate→AVP→Registrar→VP→Provost→President

2. **Student from Academic Affairs**
   c. Department Chair→Dean of Academic Affairs→Registrar→Provost→President
   d. Faculty Senate→Dean of Academic Affairs→Registrar→Provost→President
Miscellaneous Details/Considerations:

1. A posthumous degree will be printed in commencement programs within the appropriate college section. If the family chooses not to participate, this award may still be read during the ceremony (unless explicitly requested otherwise by the family).

2. If the student had financial debt to the college, this debt will be waived.

3. Exceptions to the aforementioned minimum requirements may be considered in special cases, with support of the faculty senate, administrative chain of command, and the college president.

4. The statement "awarded posthumously" will be printed on the student’s academic record, but not on the diploma.
