ND Automobile and Farm Equipment Dealership Scholarships

Participating North Dakota automobile and farm equipment dealerships are offering students a $20,000 student loan repayment program.

The Basic Process

- The student meets with a participating dealer to discuss job opportunities.
- The student learns about the dealership and job positions by visiting with the dealer.
- The dealer and student identify a major and an approved institution offering that major.
- The next step is for the student to enroll in school and begin a course of study.
- After graduating from college, the student returns to the dealership and applies for employment.
- Upon being hired, the student becomes eligible for the $20,000 student loan repayment program.

For the full automobile dealership program please visit www.adand.com/cars
For the full farm equipment dealership program please visit www.ndida.com/plow

$1,000 annual scholarships are also available for eligible students.
